ASTIGMATISM.

What it Is, and How Corrected.

Astigmatism or Irregular Vision is one of the most common of all the refractive errors. It is due to the irregular curvature of the film known as the Cornea. Of course no instrument is sufficient to correct it, but in the hands of a thoroughly efficient and competent Eye specialist the ophthalmometer reveals the exact condition of the eye in a way that nothing else can If your eyes need attention have DR. J. T. JOHNSON to put them under this wonderful instrument Office hours 8:30 to 12:30; 2 to 6. 302½ S. Elm St.

NOTES FROM HIGH POINT.

The Local News From Our Neighbor Briefly Told.

TELEGRAM BUREAU }
HIGH POINT, N. C., July 13. }

As we write this the trial of Lindsay Croaker for assault with intent to kill Joe Jackson, in the recent shooting scrape, is being tried before Justice W. B. Steele in the mayor's office We cannot get the proceedings of the trial in time for publication, but it will appear in tomorrow's paper.

Geo. A. Kestler, of the Asheboro Street Pharmacy, Greensboro, was a city guest today.

H. C. Bowman has moved to Reidsville. His family, with the exception of Mrs. Bowman, left for their new home last night.

Miss Bessie Smith, an accomplished young lady of Winston, who for several days has been visiting her cousin, Miss Mamie Smith, in this city, left this evening for a stay of a few days with the Misses Ragan at Archdale.

The Seventh Day Adventists are building a house of worship at Archdale.

Quite a crowd of young gentlemen will go on a rusticating trip to the "Narrows" and points on the Yadkin river some time soon. They will go fully equipped for camping out and will be gone for a week or more.

Luther Jones, of Richmond, Va., brother to Mrs. E. D. Steele, takes J. S. Ragsdale's place at the depot. Mr. Jones has been in the employ of the Southern Railway for some time and understands his business. Glad to have him locate here.

Misses Jennie and Vallie Brown, Mattie and Nannie Young, and Mrs. Johnson and daughter Mattie and son Carl, all of Concord, arrived in the city last night and are stopping with Mrs. Ed. Carter for a day or so. The young ladies are enroute to Greensboro.

Mrs. W. W. Jones, of Raleigh, arrived here last evening for a visit to the family of Mr. J. E. Jones, the photographer.

Dr. W. C. Byers, a specialist of Charlotte, is in the city this week on professional business.

D. W. Marsh takes charge of the Guilford Roller Mills at Greensboro. Sorry he has left High Point

C. B. Lovelace, of Spencer, has moved his family to High Point.

Julius Hoffman, of Brick Church, is a city guest this week.

H. C. Kearns, Ransom Davis and S. H. Mendenhall are school trustees for High Point township.

A tract of land near the Union Furniture Company's factory has been purchased by the Standard Oil Co. for the erection of a large tank thereon.

Have you seen that nice display of pictures in the revolving show case in front of J. E. Jones' photograph gallery? You seldom see such an array of artistic photographs. The work is of the finest.

Mrs. Cartland, widow of the late H. H. Cartland, of Greensboro, is in the city, the guest of Mrs. E. D. Steele on East Washington street.

Miss Maggie Slaughter left for Danville, Va., this morning where she will visit relatives and friends.

MR. GRISSOM APPOINTED

Presiding Elder of Morganton District--Dr. Jones Resigns.

Rev. W. L. Grissom, of this city, this morning received a telegram from Bishop Key, of the Methodist Episcopal Church, South, informing him of his appointment to the presiding eldership of the Morganton district, to fill out the unexpired term of Dr. J. W. Jones.

Mr. Grissom is now ill at his home here. He expects to enter upon his new duties the first of August.

Dr. Jones, who is a brother of our townsman, B. E. Jones, resigns his appointment on account of ill health. He has been unable to attend to his work for some time and, his health continuing to fail, will rest until the next conference, at least. He has the prayers and best wishes of his many friends here.

A Model Drug Store.

With pleasure the Telegram calls attention to the new advertisement of Asheboro Street Pharmacy, Geo. W. Kestler & Son, proprietors Messrs. Kestler & Son recently remodeled their store, making it look completely new. The walls were calcimined, the front and interior repainted, and the stock replenished and enlarged. Asheboro Street Pharmacy is now one of the most attractive stores in the city. They have all of the best of the old and new soda drinks. Dr. S. S. Haithcock is again with the firm as prescription ist.

Fifteen all wool Pantaloons patterns in neat checks, stripes and plaids, price 1.38, 1.50, 1.65, 2.25 and up to 3.00, at Thacker & Brookman's.

AN ENGINEER'S HEROIC FEAT

Derailed His Own Train And Saved Many Lives.

MR. GORMAN CRITICALLY ILL

At Magnolia, Mass.--His Wife and Two Daughters Have Been Summoned to His Bedside.

By Wire to THE TELEGRAM.

New York, July 13 -A gravel train on the New Jersey Central Railway, with a long line of empty cars, reached the junction of the main line at the same time with the local express today. The signals gave the gravel train the right of way. The engineers both applied the brakes. The passenger engineer expected the right of way, and a panic ensued among the train load, and some jumped from the train. The gravel engineer deliberately derailed his train, thus saving many lives. The locomotives met, but the shock was so slight that none were hurt.

MR GORMAN CRITICALLY ILL.

Magnolia, Mass., July 13—Ex-Senator Arthur P. Gorman is ill here at the Hesperus Hotel. It is denied that his condition is dangerous. But that he is critically ill is shown by the fact that his wife and two daughters have been summoned to his bedside. His illness seems to be of the nature of exhaustion following an attack of the grip.

The bond issue does not raise taxes one cent.

SHALL WE VOTE THE BONDS?

Some Interesting Statistics in Regard to Municipal Ownership.

Hon. A. L Brooks, in his speech to the mass meeting of the citizens a few nights ago, referred to some strong and telling facts that were stored in a strong opinion written by Justice Walter Clark, in a recent case decided by our supreme court. Following are some quotations from his opinion:

"There is an unmistakable trend the world over towards municipal ownership of lighting, water works, and even (to some extent) street railways. Judge Dillon refers to this and intimates that it is commended by wisdom and sound policy. In Germany two-thirds of the cities own their electric lighting and car plants, and the proposition is increasing. The same is true of other countries of Continental Europe. In Great Britain and Ireland 203 cities and towns, being in fact every city of any importance save five, own their lighting plants, not only for their own corporate uses, but for furnishing light to citizens, and the average price of gas furnished to the citizens, with a profit, too, to the municipalities, is fifty-four cents per thousand

"A large and increasing number of cities and towns (already over 200) in the United States own their electric lighting plants with the result that the cost to the municipalities from official reports, is less than one-third of the average cost in cities buying their lights from private companies.

"The number of cities in this country owning their water works is 1,690 (over one-half) out of a total of 3,96 having water supply, and municipal ownership is steadily increasing. In the fifty largest cities in the Union, nineteen have recently changed from private ownership to municipal ownership, leaving only nine of the fifty which are still dependent for their water supply upon private companies. At the beginning of this century only one town in the United States owned its water supply."

"It being understood that the $300,000 of bonds is to be used for the greatest benefit to the general interests of Greensboro, and without any unjust discrimination against the interests of any one section of the city, we declare ourselves in favor of the bond issue."

Let every one endorse this by his vote next Tuesday.

MARRIAGE OF LIEUT. SCALES.

Brilliant Wedding in New York Tuesday Night.

Hon. A. M. Scales returned this morning from New York, where he attended the wedding of his brother, Lieut. Archie Scales, to Miss Hariet Pierce Graham. The following is extracted from a lengthy account of the wedding, which appeared in yesterday's New York Tribune:

A brilliant wedding took place yesterday at noon in Christ Church, Bay Ridge. The bride was Miss Harriet Pierce Graham, daughter of Brigadier-General and Mrs. William Montrose Graham, and great-granddaughter, through her mother, of President Pierce. The bridegroom was Lieutenant Archibald Henderson Scales, of Greensboro, N. C., instructor of mathematics at Anapolis.

The church was profusely decorated with white lilies and ferns which were massed at the altar with a garland twined about the altar rail. The Rev. Bishop Faulkener, rector of the church, performed the ceremony. The bride was gowned in white satin with trimming of point duchesse lace, which had been worn by her mother. Her veil was fastened with orange blossoms, and at her throat she wore a circlet of diamonds and pearls, Lieutenant Scales' wedding gift.

The bride's gift to her attendant was a circle of pearls, while Lieut. Scales gave to his brother a scarf pin of the same design. The ushers received pearl forget-me-nots. The bride was given away by her father.

After the marriage ceremony there was a reception and breakfast at the home of the bride, the Clarke cottage, at Ninety-eighth street and Marine avenue. During the breakfast the band from Fort Hamilton played on the lawn, and at 3:30 Lieutenant and Mrs Scales left town on their wedding trip.

Love may be blind, but she can see an ice cream sign half a mile away.

You don't hear much these days of Lieutenant Melanolestes Picipes Hobson.

The bond issue does not raise taxes one cent.

The Bingham Catalogue.

Prof. Preston Lewis Gray, principal of the Bingham school, at Mebane, presents us with the current catalogue of that institution. It is one of the most handsomely lithographed and printed, as well as one of the most complete and interesting that has reached our table. The book contains a number of illustrations and is, from every point of view, a credit to the excellent institution in the interest of which it was issued. For catalogue and other interesting pamphlets concerning the school address the principal.

The "Domestic Finish."

John M Dick, the progressive proprietor of the Greensboro steam laundry, continues to add new points of excellence to his laundry plant, which is already one of the most complete in the state. This week the laundry is prepared to give its patrons the "domestic finish," though those prefering the gloss finish may still have it by notifying the laundry manager. Read the new ad today.

Gala Week Stationery.

Rankin, Chisholm, Stroud & Rees have been giving away stationery, advertising our gala week. The demand has been so great that they have increased their supply, and now renew their offer. If you want to write to your friends and tell them about the "biggest" thing that ever happened to Greensboro, call on Rankin, Chisholm, Stroud & Rees, and they will supply you with gala week stationery.

Uncle Sam may have no great standing army, but the one in the Philippines is standing a great deal.

WAR HEARD FROM AGAIN.

A Sharp Engagement In the Philippines.

THE SCHEME OF ARBITRATION

Before the Peace Conference at the Hague to be Amended by Several of the Governments.

By Cable to THE TELEGRAM.

Manila, July 13—The Laguna de Boyling is patrolled by three troops of the Fourth Cavalry and the army gunboat Napidan. The force makes its headquarters on the island, living in canoes, which the men tow about to make unexpected visits to towns infested by small forces of insurgents, for the purpose of keeping the rebels moving.

There was an engagement at Mantilupa Tuesday. Five hundred insurgents were found intrenched. The Napidan shelled them. Part of the American troops landed and had a sharp running fight to the hills, where the Filipinos were too strongly intrenched to be dislodged by our small force. Two cavalrymen were wounded. The bodies of ten insurgents were found. The enemy's loss is supposed to have been about thirty-five.

THE ARBITRATION SCHEME.

The Hague, July 13—Several governments represented at the peace conference will send amendments to the arbitration scheme. These amendments chiefly relate to the form of drafting with the exception of those concerning the duties of the proposals. The drafting committee will assemble to prepare drafts for submission to the plenary commission Monday.

Dr. Schenck Denies It.

By Cable to THE TELEGRAM.

Vienna, July 13—Dr. Schenck denied today that he had been consulted for treatment of the czarina, who recently presented the czar with a girl baby, their third daughter. "I never asked or attempted to practice my theory upon the czarina," the doctor said, "or any other royal personage in Europe."

Dry Dock Badly Damaged.

By Wire to THE TELEGRAM.

Brooklyn, N. Y., July 13—A heavy rain last night badly damaged dry dock No. 2 at the navy yard here. In all probability the dock will not be available for use inside of two years, The bulge is nearly sixty feet long and four feet wide.

British Steamer Lost.

By Cable to THE TELEGRAM.

Freemantle, West Australia, July 13—The British steamer Carlisle Castle has been lost off Rockingham, near this port. Serious loss of life is feared.

A Slight Stroke.

By Cable to THE TELEGRAM.

London, July 13—Lady Salisbury suffered a slight stroke of paralysis today.

The bond issue does not raise taxes one cent.

Mr. Ferrell to Leave.

W. L. Ferrell, who has represented the American Tobacco Company here since the opening of last season, will soon leave for Winston to represent the same company on that market, During Mr. Ferrell's short stay here he has made many friends who regret to see him and his excellent family leave. He is an expert tobacconist and will be missed on the Greensboro market. It is not known who will succeed him here.

Will Bring a Band.

Durham hose company No. 1 will go to the tournament at Greensboro in great shape next month. The company has made arrangements with the Durham band which will go along to make music for the occasion.—Durham Herald.

Improvements at the Depot.

Frank Milburn, recently appointed architect for the Southern Railway, was here today examining the passenger depot, with a view to putting sheds over the platform for the better protection of passengers and transfer work.

Officer Scott Has Him.

We are requested by the chief of police to notify you that your dog is penned up all right, but if you don't come and pay that tax on him right away he'll be instantly demolished to the extent of his life.

A boil on the stove is worth two on the neck.

The best way to strike the bull's eye is to wear a red coat.

Champion Jeffries is said to be fond of good eating, and yet he's satisfied with scraps.

STOCKHOLDERS AND DIRECTORS

Of the North Carolina Railroad Meet Here Today.

The directors and stockholders of the North Carolina Railway held their annual meeting in the parlor of the McAdoo House, this city, today.

The old directors met at 12 o'clock and heard the reports of the president and attorney, which were subsequently submitted. Apart from this, only routine business was transacted.

The stockholders met at 1 o'clock and appointed four directors, as follows: Gen. R. S. Hoke, of Raleigh; Beneham Cameron, of Stagville; Henry Fries, of Winston-Salem; —— McRae, of Wilmington.

On the part of the state, Gov. Russell appointed the following directors: W. T. O'Brien, of Durham; John T. Armstrong and William Gilchrist, of Wilmington; Ellis, of Winston; J. A Smith, of Bessimer City; V. S. Lusk, of Asheville; Anjier, of Durham; L. S. Holt, of Burlington.

The new directors met at 3 o'clock and are in session as we go to press. They will elect a president.

The usual large crowd of visitors (relatives or friends of the stockholders) came to the city today, from all parts of the state. The morning train from the west was packed with passengers.

From a Good Source.

BEAUTIFUL

Building LOTS

ARE LISTED WITH

Southern Loan and Trust Co.

These lots are situated south from the State Normal College, and just opposite on the north side of West Lee street in a beautiful grove. They are a part of the Jackson place and are now for the first time offered in single lots. Any sized lot desired can be sold and terms can be made to suit purchaser. The price of these lots is put down so that they will sell rapidly. Considering the location—being near business and schools and on one of the principal streets of the city—we believe that this property is offered at a bargain. Parties purchasing lots can secure loans through us for erecting dwellings on building and loan plan. See us at once before choice lots are sold.

WHERE ARE THEY AT?

The silence from our great army of conquest gone across the seas to smother the liberties of a people who are under no obligations to us and who are more than six thousand miles from our coasts, grows ominous. Ashamed of the record that has been made by his troops, the commander-in-chief of the American army, William McKinley, has ordered that the American people at home be kept in ignorance concerning further campaigns. He has only to issue the edict, and the press censor at Manila, that all-powerful news-discriminator, does the rest.

What has become of our noble army in the Philippines? Where is Otis, where is Aguinaldo? Are the Filipinos all dead? Have those beautiful isles been sunk to the bottom of the ocean carrying with them the struggling combatants? Why this painful silence concerning the movements of those troops which everybody has been watching with so much expectation? Is there anything American about this plan of carrying on a war secretly? Does it savor of Washington or Andrew Jackson or Lee? Answer, McKinley!

Three hundred thousand dollars turned loose in our city will cause prosperity to come to the laboring classes of our people as well as afford a marked stimulus to all branches of business.

GOOD ROADS NOTES.

Prof. J. M. Bandy, city engineer of Greensboro and engineer of roads and bridges for Guilford county, who is representing Greensboro and Guilford at the Charlotte road congress—and we couldn't have a better representative—tells the Charlotte Observer the following:

"Guilford will begin macadam road building next August. Heretofore the county has confined its road work to grading and re-locating roads, preparing them for the macadam. We make no grades steeper than three per cent. The county owns a rock crusher and a roller and some half-dozen road machines. We work convicts, the force varying from sixty to 125, owing to circumstances. Guilford is waking up to the necessity of better roads."

Prof. Bandy addressed the meeting yesterday on the question of inaugurating road work in a county, making, it is reported, an entertaining talk. He said that the first thing to do was for some citizens of the community to take the good roads matter in hand and create such a sentiment as would build a few miles of good road as an object lesson. He said that this work necessarily be one of sacrifice to those who began it, but in the end it would pay.

Mr. A. H. Stokes, of Durham, thought it would be well for the State to use the convicts to build a few miles of good road in the 70 counties in which no good roads are now being built, and by this kind of state aid to further the good roads cause.

Prof. Holmes explained the work of the Road League of North Carolina. He said that the League would soon have ready a pamphlet suitable for distribution in the public schools of the state, setting forth the claims of good roads, thus beginning the discussion of the road problem with the children In addition to this, he said it was the intention of the League to send out a lecturer with pictures and lantern to present the cause to the people in all parts of the State.

The Raleigh News and Observer pays the following beautiful tribute to that polished, learned, and much-loved North Carolinian, the deeply lamented Judge McCorkle, who died last Tuesday:

"He was of that old type of honorable and unassuming North Carolina leaders who loved the soil and the people, and never had an ambition but to bless the state. He was the best type of the fine population of Catawba and the surrounding counties—conservative, safe and prudent whose motto was 'It is better to be safe than to be sorry.'

"Judge McCorkle was an honest lawyer, practicing his profession upon the highest plane of professional ethics, never willing to serve his client at the sacrifice of his professional honor. His influence was potent to keep the bar in touch with the aspirations of the people and to be worthy of their confidence. As a legislator, he truly represented his constituents, being re-elected time and again. As a judge he was capable, fair and courteous As a soldier, he was brave and faithful. As a citizen and Christian, he so lived as to be known 'as one who loves his fellow men.'

"He was a country lawyer of the old school—a race of men who have stood always for the best traditions and the truest progress. His mantle falls upon worthy sons. They will deserve the state's gratitude if they serve their country and their God as faithfully as their venerable father."

Judge McCorkle was of that sturdy race who have brought to the old North State her characteristic conservatism and the other noble qualities that mark the best people in the world.

The news that Greensboro has voted $300,000 of bonds for public improvements, as it goes spreading all over the whole country—and such news travels like wild fire—will be an advertisement to our city inestimable in its benefits. Capital is attracted to a town that has faith in its future. It is to the deep interest of our every citizen, both white and colored, that the bond election be carried next Tuesday. Let every man do his part, and victory will be the result.

The most interesting news we have to offer our readers today, intelligence that bids the heart tug and leap at his strings and fills the soul with unspeakable rapture, is that our dearly beloved Alger has decided to stay with us awhile longer, and to not resign just yet as we were so fearful he would do. How brightly the sun shines, how sweetly the feathered songsters do sing, and how exasperatingly beautiful the world looks today. (!!!****!!!)

Is It Right for an Editor to Recommend Patent Medicines?

From Sylvan Valley News, Brevard, N. C.

It may be a question whether the editor of a newspaper has the right to publicly recommend any of the various proprietary medicines which flood the market, yet as a preventive of suffering we feel it a duty to say a good word for Chamberlain's Colic, Cholera and Diarrhoea Remedy. We have known and used this remedy in our family for twenty years and have always found it reliable. In many cases a dose of this remedy would save hours of suffering while a physician is awaited. We do not believe in depending implicitly on any medicine for a cure, but we do believe that if a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy were kept on hand and administered at the inception of an attack much suffering might be avoided and in very many cases the presence of a physician would not be required. At least this has been our experience during the past twenty years. For sale by C. E. Holton, druggist.

UNCLE SAM'S HOT BATHS.

The Hot Springs of Arkansas—Via the Southern Railway.

Will eradicate from your system the lingering effects of grip and other ailments caused by the severe winter, and malaria, rheumatism, neuralgia, catarrh, stomach, kidney, liver and nervous disorders, paralysis, blood and skin diseases, and chronic and functional derangements. The mountain climate of Hot Springs is cool and delightful in summer. 100 hotels open the year around.

For illustrated literature, containing all information, address C. F. Cooley, Manager Business Men's League, Hot Springs Ark.

For reduced excursion tickets and particulars of the trip, see local agent or address W. A. Turk, Gen'l Pass. Agt. Southern Railway, Washington, D. C. jl4-tf

---

The scientists have discovered a new disease known as "automobilomania."

No Cure—No Pay.

That is the way all druggists sell Grove's Tasteless Chill Tonic for Chills and Malaria. It is simply iron and quinine in a tasteless form. Children love it. Adults prefer it to bitter, nauseating tonics. Price, 50c.

ADDRESS BY AGUINALDO

On the Anniversary of Proclamation Of Filipino Independence.

Manila, July 12—A copy of the Sin Dependencia has reached Manila containing the speech which Aguinaldo made during the recent celebration at Tarlac, of the anniversary of the proclamation of the Philippine independence. In substance it is as follows:

"Filipino, beloved daughter of the ardent sun of the Tropics, commended by Providence to the care of noble Spain, be not ungrateful to her salute who first warmed you with the breath of her own culture and civilization.

"It is true she sought to crush thy aspiration for independence, as a loving mother opposes separation forever from the daughter of her bosom. This but proves the excess of affection Spain feels for thee. Filipino!

"Delicate flower of the east, scarcely eight months weaned from the breasts of thy mother, thou hast dared to brave a great and powerful nation such as is the United States, after barely organizing and disciplining thy little army. Yet we reply, we will be slaves to none, nor allow ourselves to be deceived by soft words. Let us continue to defend our fatherland until independence is assured, for this is justice. We shall see at least that the great American nation will acknowledge the right which is on our side. That doctrine of the great Monroe, that America is for Americans, is not forgotten. Just as we affirm that the Philippines are for the Filipinos. Some states of the American Union have arisen in our favor.

"Especially is the democratic party convinced that both victors and vanquished will lose precious lives. Thus many of the people and many statesmen censure President McKinley as inhuman for having ordered his representatives at Manila to seek means to bring about hostilities with the Filipinos. These facts prove that they wished to try us to see if we are able to live up to the second color of our banner—red—which signifies courage, heroism and martyrdom. Therefore, we should not resent this struggle with the Americans In spite of their expressed desire to dominate all the Philippines well, convinced are they that we will fight with justice and right on our side and that autonomy is all a show of deceit only serving to save certain accumulated wealth. We have never concealed our aspirations, that we aspire but to independence, that we will struggle on to obtain it, perhaps from those who are now our enemies and tomorrow will be our allies as they were for the overthrow of the power of Spain. We might well accept this autonomy America offers, but what can we do with it if our ambition is independence and if we are to accept it only to later overthrow by force of arms the sovereignty of America? As I believe it is the intention of the autonomists to make use of treachery and deceit, we cannot accept such a procedure. We do not wish to be traitors afterward. We wish to show our character of frankness and sincerity and nothing more. Let us avoid the example of those natives who having at one time been colonists accepted autonomy to enable them to make their work surer once everything was prepared. History has given us an example of this in recent events. Let us persist in our idea which is only the legitimate and noble aspirations of a people which is desirous at all costs to preserve its national honor spotless and as pure as a crystal. Thus, then, there will not be single Filipino autonomist. Those who are so are in the eyes of the people but time servers, fearful of losing their riches, threatened by risks of war.

"Filipinos, let us be constant.

"Let us strengthen the bonds of our union."

Aguinaldo concluded with calling for cheers for independence, the union of the Filipinos and for the liberating army.

Marriage may be a failure sometimes, but if you marry a widow you may be sure it is not a "miss-take."

Mr. A. Saunders, writing from Cocoanut Grove, Fla., says there has been quite an epidemic of diarrhoea there. He had a severe attack and was cured by four doses of Chamberlain's Colic, Cholera and Diarrhoea Remedy. He says he also recommended it to others and they say it is the best medicine they ever used. For sale by C. E. Holton.

The cigar dealer may not advertise much, but it takes a good many puffs to make his business prosperous.

To cure piles, strike at the root—that's the way. DeWitt's Witch Hazel Salve strikes at the root—it removes the cause, quickly and permanently. Don't squander time and money trying to remove the effects. Howard Gardner.

What you want is not temporary relief from piles but a cure to stay cured. DeWitt's Witch Hazel Salve cures piles, and they stay cured. Soothes and quickly heals old sores, scalds, cuts, burns, wounds and skin diseases. Howard Gardner.

Yellow Jaundice Cured

Suffering humanity should be supplied with every means possible for its relief. It is with pleasure we publish the following: "This is to certify that I was a terrible sufferer from yellow jaundice for over six months, and was treated by some of the best physicians in our city and all to no avail. Dr. Bell, our druggist, recommended Electric Bitters; and after taking two bottles I was entirely cured. I now take great pleasure in recommending them to any person suffering from this terrible malady. I am gratefully yours. M. A. Hogarty, Lexington, Ky." Sold by C. E. Holton, druggist.

A SOUND MONEY CONVENTION.

Quite Probable That It Will be Held in Richmond Next October.

Richmond, July 12—Mr. E. V. Smalley, general secretary of the National Sound Money League, was in Richmond today, consulting with a number of gold standard men with reference to holding a national currency convention in this city, at some date in October next.

The president of the league is the Hon. J. Sterling Morton, of Nebraska, who was Secretary of Agriculture in Cleveland's cabinet. The chairman of the executive committee is M. E Ingalls, president of the Chesapeake & Ohio railroad. The vice-president for Virginia is Wm. L. Royall, of this city. It is stated that a local committee composed of prominent Richmond men of both parties will be organized to take charge of the arrangement for the convention and of the invitations to speakers. Secretary Smalley left for the Hot Springs tonight, to report to Mr Ingalls the report of his conferences in Richmond, and it is probable, it is said, that a call for the convention will be issued some time in August.

Executrix's Notice.

Having qualified before the clerk of the superior court as executrix, with the will annexed, of the estate of H. H. Cartland, deceased, I hereby notify all persons having claim against the said estate to present them to me on or before the 20th day of April, 1900 for payment or this notice will be plead in bar of their recovery, and all persons owing the estate are requested to make immediate payment.

This April 20th 1899.

H. G. CARTLAND, Executrix.

J. E. Cartland, Agent for the Executrix.

Notice of Election.

UNDER and by virtue of a resolution of the Board of Aldermen of the City of Greensboro, North Carolina, passed on the 12th day of May, 1899, and on the 5th day of May, 1899, in pursuance of the charter of the city and an act of the General Assembly of North Carolina, at its session of 1899, ratified on the ——day of —— 1899, entitled "An act to allow the City of Greensboro to Issue Bonds," which said resolution, charter and act of the Legislature is made a part of this notice, notice is hereby given that a special election will be held in said city at the Market House in said city on the Third Tuesday in July, 1899 being the 18th day of July, 1899, for the purpose of submitting to the qualified voters of said city the question of issuing Three Hundred Thousand Dollars of coupon bonds, payable thirty years after their date, and in denominations of $100.00, $500.00 and $1,000.00, and bearing interest payable semi-annually at five per centum per annum, and the levy of an annual special tax to pay said bonds at maturity, and the interest as it becomes due, the said bonds to be used for the following purposes, and none other, the amounts given being the maximum amounts to be spent for the purpose specified, to-wit:

Twenty-five Thousand Dollars of bonds for the purpose of building or buying, conducting and operating an electric light and power plant, or gas plant, or both, to furnish ligats for the streets of city; and electric lights and power to the citizens of said city if the Board of Aldermen sees fit: One Hundred Thousand Dollars of bonds for the purpose of buying a Water Works plant and maintaining the same, to furnish water for the use of the city and its citizens.

Sixty-Five Thousand Dollars of bonds for the purpose of building, constructing, enlarging and maintaining the sewerage system; Thirty-Five Thousand Dollars of bonds for the purpose of erecting a building or buildings for a City Hall and Market, and for the Fire Department or some of the fire companies and for other city uses; and Seventy-Five Thousand Dollars of bonds for the purpose of grading, curbing, macadamizing, paving and improving the streets of the city; at which election those qualified voters favoring the issue of said bonds and the levy of said tax as aforesaid shall vote a ballot on which is printed or written or partly printed and partly written the word "Issue" and those qualified voters opposing the issue of said bonds, and the levy of said tax as aforesaid, shall vote a ballot on which is printed or written, or partly printed and partly written the words "No Issue."

That for the purpose of holding said election M. C. Workman has been appointed Registrar, and the following have been appointed inspectors of said election, viz:

For the First Ward, A. M. McAdoo.
For the Second Ward, Jesse T. Abbott.
For the Third Ward, B. E. Sergeant.
For the Fourth Ward, J. H. Rankin.
For the Fifth Ward, W. G. Lewis.
For the Sixth Ward, G. T. Glascock.

And said Registrar will keep his registration books open for the registration of voters at Matthews' Store, M. P. Building, South Elm street, beginning forty days prior to said election and will close said books ten days before the said election, and said election shall be held in all respects as provided in the aforesaid act, and in the charter of the city.

By order of the Board of Aldermen.

JOHN S. MICHAUX, City Clerk.

May 3, 1899.

W. A. TURK, Gen. Pas. Agt., Washington, D. C.

R. L. VERNON, T. P. A., Charlotte, N. C.

It was one of these experimental farmers, who put green spectacles on his cow and fed her shavings. His theory was that it didn't matter what the cow ate so long as she was fed. The questions of digestion and nourishment had not entered into his calculations.

It's only a "tenderfoot" farmer that would try such an experiment with a cow. But many a farmer feeds *himself* regardless of digestion and nutrition. He might almost as well eat shavings for all the good he gets out of his food. The result is that the stomach grows "weak," the action of the organs of digestion and nutrition are impaired and the man suffers the miseries of dyspepsia and the agonies of nervousness.

To strengthen the stomach, restore the activity of the organs of digestion and nutrition and nourish the nerves, use Dr. Pierce's Golden Medical Discovery. It is an unfailing remedy, and has the confidence of physicians as well as the praise of thousands healed by its use.

In the strictest sense "Golden Medical Discovery" is a temperance medicine. It contains neither intoxicants nor narcotics, and is as free from alcohol as from opium, cocaine and other dangerous drugs.

Don't let a dealer delude you for his own profit. There is no medicine for stomach and blood "just as good" as "Golden Medical Discovery."

"I can say to you, one bottle of your 'Golden Medical Discovery' has cured me sound and well, after suffering two long years with stomach disease," writes W. H. Braswell, of McAdenville, Gaston Co., N. C. "My health is worth all the world to me. I will praise you as long as I live."

A book of 1008 pages given away. On receipt of stamps to pay expense of mailing only, we will send you The People's Common Sense Medical Adviser, free. Send 21 one-cent stamps for the paper covered edition, or 31 stamps for the same edition cloth bound. Address Dr. R. V. Pierce, Buffalo, N. Y.

A Cheap Trip to the Pacific Coast.

The National Educational Association meeting at Los Angeles, Cal., is the occasion for the Southern Railway to put on the remarkably cheap rate of One Fare for the Round Trip (plus $2 00 Association Membership fee). This, in connection with the new Palace Tourist Sleeping Cars, operated over the Southern Railway and the Southern Pacific, a double berth in which costs only $7.00, renders possible the cheapest and most enjoyable trip of the season. A particularly pleasant feature of this trip is that the tickets are good going one way and returning another; i. e., going via New Orleans and returning through Salt Lake City and Colorado; or by the payment of $12.50 additional, the trip may be made returning through Portland, Ore.

Stop over privileges are allowed at El Paso or any point west thereof, on the going trip, and at any point west of Denver and Colorado Springs on the return trip. By this means passengers are afforded the opportunity of seeing the entire Pacific Coast. Side trips are arranged at nominal cost from Los Angeles and San Francisco to all points of interest in California. Further information may be obtained from any agent or representative of the Southern Railway, or from

A. J Poston, General Agt., 511 Pennsylvania Ave., Washington, D. C.

WINE OF CARDUI

A SURE MEDICINE.

HANDSOM, VA., Dec. 21.

I have been suffering from female weakness for four years, and have taken many medicines, but Wine of Cardui and Black-Draught have done more for me than anything else.

MRS. CAROLINE EVANS.

McELREE'S **Wine of Cardui**

It is a mistake to take any and every kind of medicine when you are sick. There is danger in it. Most of the so-called cures for "female weakness" do nothing more than deaden the pain temporarily, and when the effect wears away the patient is weaker and sicker than before. It is never wise to take chances. You have only one life, and that is dear and precious. If you have any pain, ache, disorder or weakness in the feminine organs, nothing will help you like Wine of Cardui. It helps do away with morning sickness during the early stages of pregnancy, and modifies the pains of childbirth; recovery is rapid and future health is assured. The Wine is purely vegetable, being made of herbs whose medicinal properties act directly upon the organs of womanhood. It is a long-tried remedy, and has many years of success behind it. It is sure. Why take a chance medicine when you can get a sure medicine?

A TRICK BY SPAIN?

Believed to Be Trying to Get Her Captured Ships.

Washington, July 12—An officer from a prominent firm of ship brokers doing a large foreign business, to purchase the Reina Mercedes and any and all of the other war craft captured during the late war, has aroused a suspicion that Spain is trying in this indirect manner to obtain possession of the vessels, and thus remove the offense to Spanish pride caused by the floating of the American flag over her ships. The navy department will not sell any of these vessels, and that answer will be returned to the writer of the letter.

Secretary Long has decided that it will not pay to attempt to renovate the Mercedes and use her as a warship She will be left as a show ship, like the old Constitution, to gratify the patriotism of the American people.

THE TRUST STILL AT WORK.

Another Representative Trying to Secure Options at Winston.

Winston, N. C., July 12—Another tobacco warehouse trust promoter was in Winston today. He tried to secure options, but his efforts proved futile. The warehousemen declined to even give him prices. The name of the second promoter is S. A. Woodard, a prominent lawyer of Wilson, and brother of Ex-Congressman Woodard

A committee will probably be sent to Washington by the Winston tobacco board of trade to see if the revenue commissioner will not change the present ruling, which prevents dealers from delivering leaf tobacco, except in hogsheads.

Bucklen's Arnica Salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by C. E. Holton.

New President Elected.

New York, July 11—At a meeting of the directors of the Southern Express Company, held here yesterday, M. J O'Brien, the former vice-president, was elected president to fill the vacancy caused by the death of President Plant. Robert Erwin, president of the Plant System, was elected to the board of directors.

There is a time for all things. The time to take DeWitt's Little Early Risers is when you are suffering from constipation, biliousness, sick-headache, indigestion or other stomach or liver troubles. They never gripe. Howard Gardner.

"Some men who are too lazy to take advantage of their opportunities," says the Manayunk Philosopher, "would make themselves believe that they are too manly to take advantage of anything."

SOCIAL AND PERSONAL.

Night Officer Jeffries is spending the day at McLeansville.

Dr. R. M. Norman, of Lumberton, was in the city yesterday.

Miss Nannie Hamlin left this morning for Durham to spend a short while visiting relatives.

John G. Pepper, of Pilot Mountain, editor of the Surry Journal, spent today at the McAdoo.

Col. Henderson, of Knoxville, general southern counsel of the Southern railway, was in the city last evening.

Uncle Ephraim Haystack, of Squashtown, who will ride at the lawn party tomorrow night, is visiting friends in West End.

Mr. and Mrs. Morris and Misses Kelley Rainey, Shelly Thomas and Annie Mendenhall, of Thomasville, are spending the day in the city.

J. H. Harris, who has been at St Joseph's Hospital, Baltimore, under treatment for several weeks, returned home yesterday. Mr. Harris is much improved in health.

Miss Lucy Smith, of Charlotte, who has been visiting her brother, Mr Tom Smith, on South Spring street, left yesterday for Burlington to spend a short while with other relatives.

David B. Stafford, youngest son of Ex-Sheriff Stafford, who for the past two years has been bookkeeper for a large wholesale house in Wilkesboro, has accepted the position of assistant manager of the Elite Confectionery Co., 110 South Elm street, where he will be pleased to meet his many friends in this county and city.

What is Kodol Dyspepsia Cure? It is the newly discovered remedy, the most effective preparation ever devised for aiding the digestion and assimilation of food, and restoring the deranged digestive organs to a natural condition. It is a discovery surpassing anything yet known to the medical profession. Howard Gardner.

Good Roads Club.

We the undersigned agree to subscribe the amount opposite our names for each mile of road to be macadamized outside of the city limits in the County of Guilford for the first forty miles to be built, to be paid to the county commissioners as the work progresses.

Snakes Drive Out Lumbermen.

Williamsport, Pa., July 10—Rattlesnakes are reported so plentiful in the mountains up Loyalsock creek that the lumber and bark jobbers are having trouble to keep their men at work, and many are deserting the camps.

The Sapphire Country.

Along the cool southern slopes and table lands of the Blue Ridge mountains in Western North Carolina, at an average altitude of 3,000 feet, is a country full of delightful surprises to the tourist, sportsman and health-seeker. No other state contains so many clear, cold and wonderful'y picturesque streams, so many grand water falls, such wide sweeping mountain views, and such beautiful lakes as the Sapphire Country, where until recently there was no provision made for the accommodation of visitors to this delightful section. Now, however, entertainment is offered on Lake Sapphire, Lake Fairfield, and on the summit of Mt. Toxaway, the view from the lodge there being the most extensive of any mountain point of vantage in North Carolina.

Parties desiring to visit this beautiful country can purchase round trip tickets to Brevard, N. C., via Hendersonville, where coaches convey you over good roads making the drive one of extreme pleasure. For full information call on any agent Southern Railway, or write R. L. Vernon, traveling passenger agent, Charlotte, N. C., or W. A. Turk, general passenger agent, Washington, D. C.

Harduppe—"I tell you times are hard nowadays."

Dedbroke—"I should say so. I can't even raise money on a diamond."

Harduppe—"That's strange."

Dedbroke—"Not at all. I haven't got the diamond."

Discovered by a Woman

Another great discovery has been made, and that too, by a lady in this country. Disease fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly, and could not sleep. She finally discovered a way to recovery by purchasing of us a bottle of Dr. King's New Discovery for consumption, and was so much relieved on taking first dose that she slept all night; and with two bottles has been absolutely cured. Her name is Mrs. Luther Lutz." Thus writes W. C. Hammick & Co., of Shelby, N. C. Trial bottles free at C. E. Holton's drug store. Regular size 50 cents and $1.00. Every bottle guaranteed.

GREAT TIME AT WASHINGTON

Expected When the Sword Is Presented to Dewey.

BRYAN NOT TO BE SIDETRACKED

In Virginia, But a Full Delegation For the Nebraskan Will Be Sent to the National Convention.

Special to the TELEGRAM.

Washington, D. C., July 13—At the Navy Department it is stated that up to yesterday afternoon no word had been received from from Admiral Dewey. The Secretary of the Navy sent a cablegram acquainting the Admiral with the suggestion that the sword voted to him by congress shall be presented to him from the steps on the east front of the Capitol building. The Secretary of the Navy is personally in favor of carrying out this suggestion, having given it his endorsement. In response to inquiries he stated that he knows of no reason why the Admiral should not accept it, and he believes that he will. Mr. Long stated that the Admiral is naturally modest, and does not like to be made the center of a public display, but he thinks that under the present circumstances he will be willing to accede to the wishes of the public.

If the Admiral accepts the invitation the ceremony in front of the Capitol will be one long to be remembered. The east front of the Capitol overlooking the large plaza has become famous as the scene of many presidential inaugurations, but the presentation of the sword to Admiral Dewey will be a novel feature, and it is expected that an immense throng of people will visit Washington from all points of the country to witness the ceremony. It is expected that he will be in Washington about the first of October, although at the Navy Department it is said that this is not certain. Nothing has been heard from the Admiral, however, to lead to the belief that the time of his arrival in the country will be postponed. It is the understanding that as soon as he arrives in New York, he will come as directly as possible to Washington, as he will naturally wish to consult with the president and naval officials at the earliest possible date.

The interview with Senator Morgan, of Alabama, published in the Washington Post, has excited much comment among both democrats and republicans. Senator Morgan's views regarding the next democratic nominee are not endorsed by leading democrats in the south. Ex-Senator Pugh, of Alabama, says that he has read the interview, and is "greatly surprised and mortified. He does not think the party can afford to adopt Senator Morgan's suggestion to shelve Bryan at this time. Virginia democrats who are in the city say that it is not the policy of the party in their state to instruct delegates, but that a full Bryan delegation, who can be depended upon to support the Nebraskan, will be chosen. North Carolina democrats seen yesterday state that there is no question of a Bryan delegation being chosen from that state. Senate Representative Sparkman, of Florida, who is in the city, says that the interview with Senator Morgan will not be endorsed by Florida democrats, and that Bryan will get a full delegation from his state. Other southern congressmen in the city express the same opinion.

In connection with this it might be stated that the republicans are not all united in favor of a bill declaring for the gold standard in express terms. Senator Thurston, of Nebraska, is quoted as saying that in his opinion such a bill cannot pass the senate.

At the war department there was a rumor afloat yesterday that Gen. Fitzhugh Lee would be home next August on leave of absence. In response to inquiries nothing could be learned to substantiate it. It is said the general has not asked for leave of absence yet, but of course he may do so later on.

Mr. Newberry, of the Old Dominion Steamship Line, which does a large business with Norfolk, and the south, was in the city yesterday. He was here for the purpose of appearing as a witness in the case of Charleston against the various eastern railroads charged with discriminating rates against South Atlantic ports.

John W. Gulick, of Goldsboro, N. C., was at the Metropolitan hotel yesterday morning. He will be in Washington only a few days, being here on purely private business.

New postoffice has been established at Ore Knob, Ashe county, N. C.

John S. Ledford has been commissioned postmaster at Grantville, North Carolina.

William N. Gregory has been commissioned postmaster at Shiloh, North Carolina.

Postmasters have been appointed in North Carolina as follows:

Samuel T. Whitesides, All Healing, Gaston county; William H. Culifer, Argo, Nash county; Mrs. Martha J. Belt, Cleone, Union county; George W. Bringle, Craven, Rowan county; and Louis P. Gibson, Elmore, Richmond county.

T. C. Lain, wife and two children, are at the Metropolitan.

Mr. S. H. Rawlings, of Wilson, N. C., is also at the Metropolitan.

W. M. Gallagher, of Bryan, Pa., says: "For forty years I have tried various cough medicines. One Minute Cough Cure is best of all." It relieves instantly and cures all throat and lung troubles, coughs, colds, croup, whooping-cough, la grippe and pneumonia. Howard Gardner.

BRIEF LOCAL MATTERS.

Full line of pants received by Will H Matthews. See ad.

Misses Sadie and Grace Fisher, of Concord, are spending the day in the city.

Full rehearsal of the Pied Piper chorus and orchestra at the Academy of Music tonight.

Miss Louise Henley returned at noon from High Point, where she has been visiting for several days.

All ball players of the first team are requested to report at the park every afternoon at 4 o'clock for practice.

W. E. Coffin returned at noon today from Asheville, where he attended the meeting of Southern Railway agents.

W. D. McIver, Esq., of Newbern, is visiting his brother, Dr Charles D. McIver, of the State Normal and Industrial College.

Mrs W. R. Murray and Mrs. M. M. Demock left this morning for Asheville, to spend some time visiting Mrs. Charles D. Thornton.

Misses. Bessie and Eulah Rouse, who have been visiting their sister, Mrs J. Y. Joyner, left at noon for their home at Wilson's Mills.

The Elite Confectionery Company will make the strawberry cream for the West End lawn party at the Academy of Music tomorrow night.

All who have promised cream, cake, milk, etc, for the West End lawn party will be called on tomorrow afternoon by the boys. Please be ready.

Rev. and Mrs. D N. Caviness passed through the city today going to Pomona to visit Mrs. Caviness' parents. Their daughter, Miss Edith, accompanied them here, and will go to Pomona tomorrow.

Charles L. Andrews returned today from Oak Ridge, where he has been resting for a few days. His many friends will be pained to learn that he is threatened with a serious heart trouble, caused by injuries received by an accident in Baltimore last fall.

There will be ten marshals to assist you in having a pleasant evening at the lawn party tomorrow night at the Academy of Music, and twenty beautiful young ladies will assist as refreshment venders. The sextette has been practicing regularly and will sing tomorrow night.

John Taylor, whose father charged him with the theft of a watch and some money, was brought back from Colfax by Officer Stewart yesterday. John's father had sworn to disregard paternal ties, and, if possible, send his son to the roads, but at the trial he backed down, plead for his son, paid the costs and the two went home together.

W. H. Dunbar, of Mullins, S. C., stopped here upon his return from Baltimore, to investigate this city with a view of establishing a manufacturing and wholesale confectionery and cracker business. We learn that he was much pleased and will associate himself early in the fall with the Elite Confectionery Company, increasing its capital stock to $10,000 for the purposes above mentioned. We welcome all such enterprises.

Macadamized Streets.

"Seventy-five thousand dollars of bonds for the purpose of grading, curbing, macadamizing, paving and improving the streets of the city." (From notice and resolution of the board of aldermen.)

The city expends $5,000 00 annually on its streets and has no streets worthy of the name except the two macadamized streets. The money is wasted in filling and refilling holes in the ground. This is pouring money through a hole like water through a sieve. Think of the condition of our mud streets every winter. Good streets are impossible in this soil without macadamizing and paving. Macadamize, pave and grade the streets and you have permanent, good streets, and the expense of keeping them in good condition will be reduced to a minimum. Compare the expense of trying to keep Asheboro street or Walker avenue in passable condition with the annual expenditure on Elm street or Summit avenue, and then compare the condition of these streets. Better streets mean better and easier transportation, corresponding increase in traffic, a saving in horseflesh and vehicles, a saving in solcleather for the pedestrian, and a saving in soul worry for all citizens and visitors.

The reputation, progress and prosperity of the city demand improvement of the streets of Greensboro. No progressive, up-to-date city has such streets as ours and no city that hopes to gain and sustain reputation as such can continue to have such streets.

The value of property would be greatly enhanced by good streets. Much property that is now valueless wou'd be rendered valuable by being rendered accessible.

After the experience of last winter all will admit the necessity of better streets, and further argument is unnecessary. For years our citizens have made life a burden to the city aldermen by their constant and clamorous demands for better streets by their homes and property. The aldermen will give the streets if the citizens will vote the bonds and provide the money. There is no other way to get streets.

Vote for the bonds and get ten miles of curbed, graded, paved, macadamized streets and lift the "City of Flowers" out of the mud.

Read the views of two representative well-informed citizens on this subject.

The Necessity and Advantage of Street Improvement.

Mr. Editor:—Every age has its characteristic; and the study of every nation has revealed what at times was its dominating idea.

Our age is an age of money making. This is not necessarily wrong. But out of this and other necessities and conditions of the human race have grown facilities for rapid transit and rapid communication. Hence steam, telephones and electric appliances.

To meet these demands invention has been taxed to its utmost. As invention has broadened manufacture has increased. Not only has this been a cause for increased manufacture; but the necessities of the race growing out of the effects of invention have enlarged the field of manufacture. Hence the field of commerce has grown correspondingly. This, therefore, brings necessarily an age of rapid transit, urges upon us the advantage of improving our methods and facilities of transportation.

The advantage of street improvement is clearly seen in the fact that it meets the demand of rapid transit. Capital with its eagle eye is induced to invest where street and highway improvements are found. No people who expect to keep in the race of prosperity can neglect such improvement.

Apart from the fact that street improvement much enhances our prosperity by inviting capital and giving employment to the population, sanitary considerations demand it. It is a moral obligation that a city furnish its people pure air and pure water. These should be furnished at cost.

When streets and sidewalks are put under gradients by the civil engineer and are macadamized they then under the force of gravitation become self-cleansing. Street improvement apar from beauty and wealth, is a street scavenger. This is one of the greatest advantages of street improvement. When a city has freed itself from epidemics and dangerous infections by instantly and effectually removing such causes it becomes the centre of wealth, culture and happiness. There is, therefore, an urgent necessity for street improvement in every city that is in the mud and without the water carrier system to remove every cause of death. Moreover, street improvement enhance the looks of a city, makes it more desirable to live in such a place. This is no small consideration when the poorest of us like to have pretty homes.

Bandy.

Come to the court house at 8:30 tonight.

If We Only Realized.

If we only realized the advantages of good macadamized streets and roads, we would be deeply in earnest about voting the bond issue next Tuesday. If there were two business propositions made you today—one to give up one-half of your accumulations, and have good streets in our city and have good roads all over our county, or give nothing and let them remain as they are—it would be a wise choice to take the former as a business investment. The one-half then would be worth more than the whole now. We would have an opportunity to start this movement without a cent of cost to us. Our people are beginning to waken to the importance of good streets and good roads.

Greensboro has many advantages over Charlotte in point of location, etc., but Charlotte has already obtained a national reputation for good streets, and old Mecklenburg county now stands head and shoulders above any other county in the state, and I believe in the south, and it is chiefly on account of her progressive spirit in building good roads.

The time has come when we must do more than talk, it is time for action.

E. P. Wharton.

Sewerage.

"Sixty-five thousand dollars for the purpose of building, constructing, enlarging and maintaining the sewerage system." (From notice and resolution of board of aldermen.)

The city plot in the mayor's office shows that approximately two-thirds of the city of Greensboro is absolutely without sewerage. This might be safe for a country village but it is a constant menace and an advertising disgrace to a city of 19,000 inhabitants. Public health and public safety demand an immediate enlargement of the sewerage system. Convenience and comfort and cleanliness and decency demand it.

The reputation and progress of a city that hopes to become a great city by inviting desirable immigration and investment of capital demand it.

Increase of sewerage means increase of demand for water and increase of profits from water rents. Let the city own both and get the profits for development.

Sewerage and water connection will increase the desirability, convenience, comfort, value and rent of houses and thus pay owners of property handsomely. Renters will gladly pay more for the increased conveniences.

Would a progressive laboring man or capitalist looking for a desirable city for a home or for an investment of capital, prefer a city with adequate sewerage and waterworks, or one without these?

All admit the necessity and desirability of more sewerage. The city would have provided it long ago if the money for that purpose had been available. Bonds are the only available means of securing the necessary funds.

Vote for them Tuesday and get sewerage.

Sound Talk on Sewerage and Streets

Mr. Editor:—Believing it the duty of every man to have an opinion upon all matters of public interest, also to express it and vote it, we ask your indulgence and sufficient space in your columns to express ours upon the bond issue question now so prominently before the voters and tax payers of Greensboro. For a progressive, thinking man who is posted on the conditions as they are today there can be but one side to this question.

Greensboro is growing fast. Much faster than many of her citizens realize. The town is stretching out in every direction, and the vacant lots in the older settled portion of the town are fast being built upon. With this rapid growth the necessity for a first-class system of sewers is very apparent. We should have had them long ago, but now they are absolutely necessary, or we must soon meet a sanatary condition that will be hard to handle. The wells, which have so long furnished the best water in the world, will become polluted as the population becomes denser, and sickness and death must follow. The streets must be put in a more passable condition than they have heretofore or we must suffer from them not only in a matter of health but from a financial point of view. We have brought a good many people to this city from other states during the last year, with a view to locating them among us. They are invariably pleased with our climate, our location geographically. They approve of our churches and our school system, but they do not praise our streets and sanitary system. We have missed making a number of sales of residences and resident lots because, in the section where our parties wanted to live, there was no sewer and no means of getting one, and the streets were so utterly impassable a team could not be driven through them, and where the sidewalk should have been a similar condition existed. By all means vote these bonds and then judiciously spend the proceeds in making paved or macadamized streets and sidewalks, and building adequate sewers to put our town in a safe and healthy condition. If you object to them on the ground you do not want to burden the future generation with this debt, remember that this burden is offset by the increased value of the estate you leave them, brought about by the improved streets and sewer system.

Jordan, Sinclair & McDonald.

WATER WORKS

Owned, Controlled and Operated by The City.

"One hundred thousand dollars for the purpose of building or buying a waterworks plant and maintaining the same to furnish water for the use of the city and its citizens." (From notice and resolution of board of aldermen.)

The city now pays about $5,000 annually for hydrants, $35 for each hydrant, for fire protection alone. Still we have scarcely more than half enough hydrants for fire protection. Portions of our city are still without adequate protection. Every taxpayer has a right to water protection for his property. At $35 a hydrant, under present arrangement, for complete protection of all portions of the city, at least sixty more hydrants would be required now, costing $2,100 more. As the city grows this amount would be increased annually. Where is the money to come from under the existing conditions? Why did the Benbow burn? Why did the Eagle Foundry and adjacent property burn? Waterworks owned and operated by the city would save all money now paid for fire protection, provide at once protection for all with little additional cost and prepare to supply all necessary protection for the future. A better system with ample pressure for complete protection would be assured.

The actual income from sale of water to private consumers at present is $8,000. This amount will be increased annually with the growth of the city and the necessary increase of sewerage. About $30,000 in sewerage now yields a water income of $8,000 from private consumers of water.

Will not sixty-five thousand dollars of sewerage double the demand for water and the income? Shall we leave this for the enrichment of private corporations, or shall we secure this large income for public improvement and development of our city by owning and controlling our waterworks?

Sewerage we must have soon for the protection of our city whether we issue bonds now or not. To increase sewerage without owning waterworks is to enrich owners of waterworks by increasing demand for water and render future control of them more improbable.

Act now. Vote for bonds Tuesday and own and control our own system of waterworks and secure for public improvements the profits therefrom for all time.

Come to the court house at 8:30 tonight.

Water Works.

The proposition to vote $300,000 in bonds for the purpose of building or buying a water works plant for the city of Greensboro is one which should appeal strongly to the good business sense of our voters. If municipal ownership of water works was an untried proposition and one which had on some occasions met with failure, then we might approach the question with some feeling of doubt, but such is not the case. Everywhere city ownership has been tried the service to the public has been more satisfactory than private ownership, and a revenue has accrued to the municipality.

This city is now paying to the home company about $5,000 per annum for water for fire purposes. Each hydrant added costs the city $35 per annum. As the city grows it will be necessary to double the number of hydrants, thereby making an outlay of say $10,000 per annum for fire purposes alone. The board of aldermen is met with ever-increasing demands for hydrants, but is unable to meet them and the question has become a very serious one. The city now pays enough for water rent for fire protection to float sufficient bonds to build water works to meet the demands of the city for years to come, leaving the operating expenses of the plant to be met by the water rents from private consumers.

If the city owned its waterworks, manufacturing plants, lumber districts, etc., that want additional fire protection could get it with a small outlay for hydrants and the cost of putting them in, whereas they now cost $35 each per annum. The city of Chicago furnishes a fine illustration of how waterworks pay.

Between 1861 and 1895 the income was $14,733,311 greater than expenses. In the annual report of the department of public works, 1895, Mayor Swift says: "Our waterworks system alone yields an annual income of more than two million dollars above its operating expenses, and when the system is improved * * * its annual net income can be applied toward the payment of the water fund bonded indebtedness, now something less than four million dollars, and toward the accumulation of a surplus fund available for further extensions and for general city purposes."

Two-thirds of the lighting of Chicago in 1895 was done by the "gas trust" and one-third by the city, with an annual cost of $1,022,545, without any income to the city, it not doing any commercial lighting. Here we have the city making large sums by owning its waterworks, at the same time furnishing ample fire protection, while, on the other hand, it does its lighting by contract with a large annual expense, without any income to the city.

Citizen.

716 votes in favor of bond issue must be put into the box to secure it. Every registered voter who stays at home has already deposited his vote against it.

Lights.

"Twenty-five thousand dollars for the purpose of building or buying, conducting and operating an electric light and power plant or gas plant or both, to furnish light and power to the citizens of said city, if the board of aldermen sees fit." (From notice and resolution of board of aldermen.)

The city is now furnished with sixty-four arc lights on moon light schedule at an annual cost of $87.50 each, making a total cost of $5,500 for light. At least 100 arc lights on every-night schedule are necessary now for adequately lighting the city. This would increase the cost of adequately lighting the city at same rate to $8,840. This amount would of course be rapidly increased as the city grows. Ownership of our own light plant would save this to the city and enable us to provide more lights and meet the increasing demands at the cost of operating only. The lights and power that the city could easily furnish private consumers from the same plant would be a great convenience to private citizens, a great encouragement to small manufacturing enterprises needing power at reasonable cost, and would eventually be a source of large income to the city.

That such a plant would pay is clearly proven by the fact that two large firms from Knoxville and Baltimore recently made propositions to the board of aldermen to put in plants and furnish the city lights at less cost than it now pays and operate several miles of electric railway. They admitted that for some years the car line would not pay, but claimed that they could more than make up the loss out of lights and power furnished city and private consumers.

Vote for bonds and get better lights, more lights and cheaper lights. Let not visitors think we love darkness rather than light.

A Market House and City Hall.

"Thirty-five thousand dollars of bonds for the purpose of erecting a building for a city hall and market, and for the use of the fire department or some of the fire companies and for other city uses."

Such a building would provide a commodious market adequate to the necessities of a growing city and all the advantages occurring therefrom in the way of better and more healthful food, fruit, vegetables, etc., and a greater variety and supply of all.

It would provide suitable headquarters for the police and for the fire department. By means of proper connection therewith any citizen could get quick and prompt protection from depredations of every sort and from fire.

Such a building would provide a large auditorium and make Greensboro with its unrivalled geographical location the favorite convention city for the majority of the great State gatherings and many of the inter-state gatherings for this section of the South Atlantic States.

Who can estimate the benefit that would result from the money left by such conventions and wide advertisement of our city?

The rents of market stalls, etc., in this building, it is estimated, would easily yield an annual income of $1,500.

See communication elsewhere on this subject.

Market House and City Hall.

Mr. Editor:—A market house and auditorium to meet the requirements of the city should be a building covering not less than 50x150 feet of ground. It should be built in such a manner as to provide all the light and air possible. A large cold storage room should be provided and all modern appliances and conveniences should be put in. On the second floor in front a hall for the mayor's court and board of aldermen and also offices for the mayor, city clerk and chief of police should be provided. The auditorium should seat not less than twelve or fifteen hundred people; it should be provided with a large stage and good scenery and should be arranged so as to accommodate large or small assemblages. If desirable, to make it pay, it could be used as a theater and concert hall as well as for large gatherings. This combined market house and auditorium would no doubt be a good paying investment, outside of the good it would do in attracting political conventions and other large gatherings here. Greensboro is the ideal place in the State for such, being centrally located and having good railroad facilities, and soon to have another fine hotel. The benefit to be derived from this one necessary improvement cannot be estimated in dollars and cents.

B. H. Merrimon.

The Simple Reason of It.

Mr. Editor—"How are we to pay the interest on a $300,000 bond issue?" The answer is simple: By applying the money we now pay for rent to the payment of interest.

Interest on $300,000 at 5 per cent	$15,000
We pay for water and lights	$11,000
We pay for temporary street repairs $5,000 annually. By putting in permanent street work we can save	2,500
The stalls in the market house and city hall will rent for	1,500
Annual water rent from private consumers will amount to	8,000
Total	$23,000

These figures show that after paying the interest on the entire issue of $300,000, we will have left in the city treasury the sum of $8,000 for operation and maintenance of plants. By combining both plants, electric light and water works, and operating them from the same station we can save at least 25 per cent. in coal and 30 per cent. in labor and superintendence.

In the estimates above given, which I submit are conservative, I take no account of the fact that $65,000 expended in the extension of the sewer will increase the city's income from water rent nearly 33⅓ per cent.

I will also call attention to the fact that the electric light plant to be installed, should the bond issue be carried at the polls, contemplates 100 arc lights of 1200 c. p. each, and on all and every night schedule. The city needs 100 lights, but now has only 64, for the simple reason that we are unable to pay for more.

Without any attempt at argument, I submit the above as a plain business statement, showing how we can get the improvements contemplated without any increase in taxation.

Z. V. Taylor.

Come to the court house at 8:30 ton'ght.

Six Reasons Why I Shall Vote For the Bond Issue.

1st. The city is going to get something for nothing. Not a bad trade to pick up $300,000 worth of improvements without cost to the taxpayers. Profits on lights and water will pay interest on bonds without any increase of taxes. Such a chance does not come every day.

2nd. The property owners of Greensboro are the strongest advocates of the bond issue. If they who pay the taxes can risk it, the rest of us can.

3rd. Municipal ownership of public improvements is essential to efficient service.

4th. The bond issue makes possible street improvements and a system of sewerage, without which Greensboro cannot be a city.

5th. I shall vote for the bonds because not a single sound argument has been advanced against it.

6th. I shall vote for the bonds because I am unable to find anybody who is going to vote the other way. The voice of the people is generally right. I shall take a seat in the band wagon.

Citizen.

A Card From Mr. Lyon.

Editor Telegram:—The impression has gone out to the effect that should the bond issue carry next Tuesday the purchaser of said bonds would own and control the water works, the electric light plant, etc. Such a proposition is absurd. The lights, water and all property bought from the sale of bonds will belong to the city, and all profits derived from water and lights will go to the city to help pay our city taxes.

T. A. Lyon.

All can be secured by bonds without increasing taxes one cent.

Card of Thanks.

We extend our most sincere thanks to all those who so kindly contributed towards our lawn party and festival at the Academy of Music lawn last night and to those who so liberally patronized it. We also wish to express our very great obligations to the young lady refreshment venders, who, with their presence and assistance, added so much to the pleasure as well as the success, of the occasion. And we want to especially thank the newspapers for the space which they so kindly surrendered to our notices. We realized quite a nice little sum.

Edney Ridge,

40 BEAUTIFUL Building LOTS

ARE LISTED WITH

Southern Loan and Trust Co.

These lots are situated south from the State Normal College, and just opposite on the north side of West Lee street in a beautiful grove. They are a part of the Jackson place and are now for the first time offered in single lots. Any sized lot desired can be sold and terms can be made to suit purchaser. The price of these lots is put pown so that they will sell rapidly. Considering the location—being near business and schools and on one of the principal streets of the city—we believe that this property is offered at a bargain. Parties purchasing lots can secure loans through us for erecting dwellings on building and loan plan. See us at once before choice lots are sold.

SATURDAY, JULY 15, 1899.

VOTE FOR BONDS NEXT TUESDAY.

A vote for bonds is a vote for progress and prosperity, comfort, convenience and health.

A vote for bonds is a vote to give employment to hundreds of laboring men in our city and to increase the circulation of money and the volume of business.

A vote for bonds is a vote to give better water and better lights and more of both at less cost to city and private consumers, without increase in taxes. See statement of expense and profit elsewhere in these columns.

A vote for bonds is a vote for better streets.

Do you want better streets? How can you get them without more money? How can you get the money without the bonds? Vote for them.

Do you want a better market house, adequate to the needs of a city instead of a country village? Do you want a greater variety of meats, vegetables and fruits, and a better quality of all? Vote for the bonds!

Greensboro has reached a crisis in her history. She cannot become a city without providing adequate sewerage for health and comfort, lights for city and citizens and electric power for fostering small manufacturing industries, good streets for transportation and traffic, a decent market and city hall. No city has been made without the aid of these necessities. No city can be made without them. Our city hasn't them. She must retrograde without them. They cannot be provided without money. The money cannot be obtained without bonds. Vote for the bonds Tuesday and let Greensboro move rapidly forward toward her destiny as a great city.

Backward or forward she must go. A vote for bonds says forward! a vote against them says backward!!

With every natural advantage in favor of Greensboro's progress, if she does not develop rapidly it will be the fault of her citizens, not of the Creator.

Water works, sewerage, lights for city and private citizens, ten miles of graded, curbed, macadamized streets for Greensboro without one cent increase in taxes, if you vote for bonds next Tuesday.

Bonds cannot be sold below par under provisions of act authorizing their issue.

If purchasers of bonds are willing to take the risk of getting interest out of profits without provision to increase the rate of taxation, why should any citizen object? Offers already to take bonds.

We are giving up this paper today to a discussion of the bond question. We believe this to be the most important matter that has come before the consideration of the citizens of Greensboro for many a day, in which the future of the city is vitally concerned, and we hope our readers will pardon us in surrendering almost the entire space of the Telegram in an effort to place the matter before the voters of this community in order that they may intelligently cast their ballots next Tuesday.

PRESIDENT DUDLEY EXPLAINS

Why the Colored People of Greensboro Should Vote for Bonds.

On Tuesday, the 18th day of July, the voters of Greensboro will decide whether three hundred thousand dollars are to be expended for public improvements—for the erection of a city hall suitable for the progressive people of Greensboro, for the purchase or the securing of an electric light plant, a waterworks system, the extension of the sewerage and for the improvement of the streets.

Unlike political questions it is not necessary to vote in order to take a part in this important matter. Every man whose name is registered, if he does not vote for the measure, will be counted against these proposed and much needed improvements. There are about five hundred colored men, whose names appear on the registration books, who will be counted as voting against the measure unless they go to the polls on Tuesday and vote for the issue. Many of these voters, like the writer, have probably thought it best to have nothing more to do with politics and by this decision will be inclined to remain away from the polls. But such a resolution should not apply to the present question. First, it is not a political subject. Men of all parties are supporting it. Secondly, if you are registered and do not vote you will, as previously stated, be counted as voting against the proposition.

With the question settled that every registered voter will be counted as voting either for or against, let us consider why the colored men of Greensboro should vote for the issue.

There is no class of people in Greensboro more directly dependent upon labor for support than the colored people.

We have no capital invested in stocks, bonds, etc, and must, therefore, almost entirely depend upon labor for support. Of this expenditure of three hundred thousand dollars, it is estimated that at least one hundred thousand dollars will be expended for labor—a large part of which will go to colored men. The consequent increased demand for labor will improve the opportunities of every negro in Greensboro, no matter in what occupation he may be engaged. As a number of idle men on the streets tends to keep down the price of all labor, so the employment of all surplus labor tends to increase the demand and pay of all labor. Here the husband or father who finds it difficult to provide for the family because of irregular work, can improve his prospects by voting for the bond issue. Will he do this or will he neglect the opportunity of bettering his condition?

It has been suggested by a probable opponent of the measure that convict labor will be largely used in the construction of these public improvements. The writer has been assured by responsible persons that no such measure is in contemplation—that it will be an investment of the people's money and shall go for the employment of the citizen, the honest but poor laboring man included.

It must not, however, be considered that the benefits to labor will be limited to the estimated one hundred thousand dollars above referred to. This is simply the direct contribution. By far, the greater and more lasting benefits will grow out of the increased impetus given to the growing mercantile interests and manufacturing enterprises which so greatly increase and diversify the demand for labor in Greensboro. Every factory, no matter if it employ white labor exclusively, adds to the volume of business, puts more money in circulation and thereby improves the chances of a negro to earn a dollar. The more money we have in circulation the more work we can get and the better pay we can expect. Unquestionably if these bonds are issued, a splendid city hall erected with an auditorium such as will attract important state gath rings, an enlarged electric plant, an extended sewerage, permanent street improvements, the progressive spirit which has so greatly helped Greensboro of recent years and which is the wonder of the entire state, will attract capitalists and business men as never before. The city will take on new growth, will put forth greater strides to industrial advancement and everybody, no matter how obscure, will feel that a new and brighter era has dawned upon the "Gate City." Will the colored man with his five hundred votes on the registration books stand in the way of and obstruct this progress or will he help it along? Why should he oppose the measure? If the bonds are issued it will be only on condition that there will be no increase of taxes. The present rental and other expenses paid by the city will fully pay the interest. It is a matter that has nothing whatever to do with politics and no man should allow himself to be misled thereby.

It has been suggested that on a previous occasion you were denied the right to participate in an important matter of public concern and that on future occasions your present privilege will be withdrawn from you. But the conditions of yesterday nor tomorrow cannot properly determine how we should meet the responsibilities of the present hour. As Samson of old pulled down the temple and destroyed himself, so we with our five hundred votes by staying at home next Tuesday may destroy the golden opportunity which the present is extending to us. But at a subsequent time, when no longer encumbered by our votes, should the whites alone pass this measure could we expect the same share of benefit?

It is to your interest, my fellow-countrymen, to live in the most progressive city of North Carolina, to do all you can to assist in making this the best city for labor, for trade, and for future growth; and in behalf of the families of laboring colored men of Greensboro, I appeal to the preachers, to the leading colored men of the community to take hold of this important matter at once, inform the people of its advantages and urge every registered voter to go to the polls on Tuesday next and vote for the bond issue.

In the interest of progress, I am

Yours truly,

James B. Dudley.

GRACE—Methodist Protestant—Rev. T. M. Johnson, pastor. Preaching by the pastor at 10:30 a. m. and 8:00 p m. Sunday school at 11:40 a. m.

WEST MARKET—Methodist—Rev. J. C. Rowe, pastor. Preaching 11 a m and 8:15 p m. Prayer meeting Wednesday 8:00. Sunday School 9:40 a. m. P. P. Claxton, superintendent. Epworth League meets every Monday at 8:00 p. m. You are invited to all these services.

LUTHERAN—Services tomorrow, the 16th, at 11 a. m. and 4 p. m., in the Brockmann school of music hall. A cordial invitation to all. Pastor, P. D. Risinger.

UNCLE SAM'S HOT BATHS.

The Hot Springs of Arkansas—Via the Southern Railway.

Will eradicate from your system the lingering effects of grip and other ailments caused by the severe winter, and malaria, rheumatism, neuralgia, catarrh, stomach, kidney, liver and nervous disorders, paralysis, blood and skin diseases, and chronic and functional derangements. The mountain climate of Hot Springs is cool and delightful in summer. 100 hotels open the year around.

For illustrated literature, containing all information, address C. F. Cooley, Manager Business Men's League, Hot Springs Ark.

For reduced excursion tickets and particulars of the trip, see local agent or address W. A. Turk, Gen'l Pass Agt. Southern Railway Washington, D. C. jl4-tf

---

Hoax—"Who does the new baby take after, you or his mother?" Joax—"I can trace a resemblance to my wife. He raises an awful howl when I come home late of an evening."

Mr. A. Saunders, writing from Cocoanut Grove, Fla., says there has been quite an epidemic of diarrhoea there. He had a severe attack and was cured by four doses of Chamberlain's Colic, Cholera and Diarrhoea Remedy. He says he also recommended it to others and they say it is the best medicine they ever used. For sale by C. E. Holton.

It's all very well for a tailor to put the latest wrinkles into your suit as long as they don't make a point of appearing up the middle of the back.

Robbed the Grave.

A startling incident, of which Mr. John Oliver, of Philadelphia, was the subject, is narrated by him as follows; "I was in a most dreadful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides; no appetite—gradually growing weaker day by day. Three physicians had given me up. Fortunately, a friend advised trying Electric Bitters: and to my great joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks and am now a well man. I know they saved my life, and robbed the grave of another victim." No one should fail to try them. Only 50 cents per bottle at C. E. Holton's drug store.

Is It Right for an Editor to Recommend Patent Medicines?

From Sylvan Valley News, Brevard, N. C.

It may be a question whether the editor of a newspaper has the right to publicly recommend any of the various proprietary medicines which flood the market, yet as a preventive of suffering we feel it a duty to say a good word for Chamberlain's Colic, Cholera and Diarrhoea Remedy. We have known and used this remedy in our family for twenty years and have always found it reliable. In many cases a dose of this remedy would save hours of suffering while a physician is awaited. We do not believe in depending implicitly on any medicine for a cure, but we do believe that if a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy were kept on hand and administered at the inception of an attack much suffering might be avoided and in very many cases the presence of a physician would not be required. At least this has been our experience during the past twenty years. For sale by C. E. Holton, druggist.

Abner Haycede—Ye say this a combination bed an' sofa." Clerk—"It is, sir." "Wal, let me look at one that ain't made by a combination. I'm opposed ter encouraging them air trusts by purchasin' their goods, b'gosh."

SOMETIMES YOU EAT TOO MUCH
SOMETIMES YOU DRINK TOO MUCH
Sometimes you do both
Leaving a bad taste, clouded brain and general rocky feeling for the next day.

Seeking Rest,
Or Health
Or Pleasure?

Then Read This:

Mt. Vernon Springs Hotel is now open for the reception of guests. The waters from the Mt. Vernon Springs are equalled by few and surpassed by none in the state for medicinal and curative properties. Some of its cures are almost miraculous. Its taste is pleasant, cool, palatable and refreshing, and you enjoy it from the first. The springs are surrounded by great natural beauty. Around the premises is a dense oak grove and the air is pure and invigorating.

This most desirable of health and pleasure resorts is located just one mile west of Ore Hill in Chatham county. For further information address the owner and proprietor,

Executrix's Notice.

Having qualified before the clerk of the superior court as executrix, with the will annexed, of the estate of H. H. Cartland, deceased, I hereby notify all persons having claims against the said estate to present them to me on or before the 20th day of April, 1900, for payment or this notice will be plead in bar of their recovery, and all persons owing the estate are requested to make immediate payment.

This April 20th 1899.

H. G. CARTLAND, Executrix.

J. E. Cartland, Agent for the Executrix.

Notice of Election.

UNDER and by virtue of a resolution of the Board of Aldermen of the City of Greensboro North Carolina, passed on the 12th day of May, 1899, and on the 26th day of May, 1899, in pursuance of the charter of the city and an act of the General Assembly of North Carolina, at its session of 1899, ratified on the — day of —— 1899, entitled "An Act to allow the City of Greensboro to Issue Bonds," which said resolution, charter and act of the Legislature is made a part of this notice, notice is hereby given that a special election will be held in said city at the Market House in said city on the Third Tuesday in July, 1899 being the 18th day of July, 1899, for the purpose of submitting to the qualified voters of said city the question of issuing three hundred Thousand Dollars of coupon bonds, payable thirty years after their date, and in denominations of $100.00, $500.00 and $1,000.00, and bearing interest payable semi-annually at five per centum per annum, and the levy of an annual special tax to pay said bonds at maturity, and the interest as it becomes due, the said bonds to be used for the following purposes, and none other, the amounts given being the maximum amounts to be spent for the purpose specified, to-wit:

Twenty-five Thousand Dollars of bonds for the purpose of building or buying, conducting and operating an electric light and power plant, or gas plant, or both, to furnish light for the streets of city; and a sufficient power to the citizens of said city if the Board of Aldermen sees fit; One Hundred Thousand Dollars of bonds for the purpose of building or buying a Water Works plant and maintaining the same, to furnish water for the use of the city and its citizens.

Sixty-Five Thousand Dollars of bonds for the purpose of building, constructing, enlarging and maintaining the sewerage system; Thirty-Five Thousand Dollars of bonds for the purpose of erecting a building or buildings for a City Hall and Market, and for the Fire Department or some of the fire companies and for other city uses; and Seventy-Five Thousand Dollars of bonds for the purpose of grading, curbing, macadamizing, paving and improving the streets of the city; at which election those qualified voters favorable to the issue of said bonds and the levy of said tax as aforesaid shall vote a ballot on which is printed or written or partly printed and partly written the word "Issue" and those qualified voters opposing the issue of said bonds, and the levy of said tax as aforesaid shall vote a ballot on which is printed or written, or partly printed and partly written the words "No Issue."

That for the purpose of holding said election M. C. Workman has been appointed Registrar, and the following have been appointed inspectors of said election, viz:

For the First Ward, A. M. McAdoo.
For the Second Ward, Jesse T. Abbott.
For the Third Ward, B. A. Sergeant.
For the Fourth Ward, J. H. Rankin.
For the Fifth Ward, W. G. Lewis.
For the Sixth Ward, G. T Glascock.

And said Registrar will keep his registration books open for the registration of voters at Matthews' Store, M. P. Building, South Elm street, beginning forty days prior to said election and will close said books ten days before the said election, and said election shall be held in all respects as provided in the aforesaid act, and in the charter of the city.

By order of the Board of Aldermen.

JOHN S. MICHAUX, City Clerk.

May 31, 1899.

R. L. VERNON, T. P. A., Charlotte, N. C.

Farmer Fahnstock thinks he owns the stock he is so proud of. But as a matter of fact the stock owns him. He is the humble servant of horse, cow and pig. He looks after them better than he looks after himself, and feeds them before he feeds himself. That is why it so often happens that just about the time that Farmer Fahnstock has reached the place where he can take things easy, he breaks down.

No class of people have been more quickly appreciative of the tonic properties of Dr. Pierce's Golden Medical Discovery than farmers and stock raisers. They have found it prevents as well as cures disease. It keeps the stomach in healthy operation, stimulates the organs of digestion and nutrition and increases the secretions of the blood-making glands. The use of "Golden Medical Discovery" at seasons when the strain of work is greatest, keeps the system in perfect working order and prevents the break down which comes from over drafts on the strength.

"I used ten bottles of Dr. Pierce's Golden Medical Discovery and several vials of his 'Pleasant Pellets' a year ago this spring, and have had no trouble with indigestion since," writes Mr. W. T. Thompson, of Townsend, Broadwater Co., Montana. "Words fail to tell how thankful I am for the relief, as I had suffered so much and it seemed that the doctors could do me no good. I got down in weight to 125 pounds, and was not able to work at all. Now I weigh nearly 160 and can do a day's work on the farm. I have recommended your medicines to several, and shall always have a good word to say for Dr. Pierce and his medicines."

"Golden Medical Discovery" contains no alcohol, whisky or other intoxicant.

A single item of medical knowledge when life is at stake has a value past computation. Dr. Pierce's Common Sense Medical Adviser has 1008 pages of priceless paragraphs. This great work is sent *absolutely free* on receipt of stamps to pay expense of mailing *only*. Send 21 one-cent stamps for paper-bound edition, or 31 stamps for edition in cloth. Address Dr. R. V. Pierce, Buffalo, N. Y.

A Cheap Trip to the Pacific Coast.

The National Educational Association meeting at Los Angeles, Cal., is the occasion for the Southern Railway to put on the remarkably cheap rate of One Fare for the Round Trip (plus $2 00 Association Membership fee). This, in connection with the new Palace Tourist Sleeping Cars, operated over the Southern Railway and the Southern Pacific, a double berth in which costs only $7.00, renders possible the cheapest and most enjoyable trip of the season. A particularly pleasant feature of this trip is that the tickets are good going one way and returning another; i. e., going via New Orleans and returning through Salt Lake City and Colorado; or by the payment of $12.50 additional, the trip may be made returning through Portland, Ore.

Stop over privileges are allowed at El Paso or any point west thereof, on the going trip, and at any point west of Denver and Colorado Springs on the return trip. By this means passengers are afforded the opportunity of seeing the entire Pacific Coast. Side trips are arranged at nominal cost from Los Angeles and San Francisco to all points of interest in California. Further information may be obtained from any agent or representative of the Southern Railway, or from

WINE OF CARDUI

Woman Knows Woman.

ZURICH, KAN., Jan. 31.

I used Wine of Cardui for nervousness and weakness in the womb. After taking one bottle I was well again. I am a midwife and always recommend Wine of Cardui to my lady friends during pregnancy and after birth as a tonic. Every lady who takes it finds that it does even more than is claimed for it.

MRS. V. M. BOISVERT.

McELREE'S Wine of Cardui

Nobody knows woman like woman. Men go to medical colleges, study books and listen to lectures. They learn indirectly of the diseases of women, but they are men and can never fully understand the ailments, the sufferings, the agonies of mothers, wives and sisters. A woman **knows.** Mrs. Boisvert **knows.** She has passed through the trials and tribulations of her sex. She has been near by when her sisters suffered. She has seen them relieved and cured with Wine of Cardui. Is it any wonder she recommends it? Is it any wonder that thousands of other women recommend it. **They know.** They have actual experience to prompt them. They spread the tidings from mouth to mouth, telling how Wine of Cardui helps young girls, helps the weak of all ages, helps and cures all womanly ills.

Puts Calls

"This is a very silly thing I'm doing," remarked the facetious highwayman as he held up Saphed.

THE TRUE GOSPEL.

How It Should Be Preached—Sermon by Rev. J. C. Troy.

"Then, fourteen years after, I went up again to Jerusalem with Barnabas, and took Titus with me also.

And I went up by revelation, and communicated unto them that gospel which I preach among the Gentiles; but privately to them which were of reputation, lest by any means I should run, or had run in vain." Galatians 2: 1-2.

The text above used is exceedingly interesting. The expression "fourteen years ago" may refer to the time when Paul and Barnabas had dissension and disputation with certain men "which came down from Judea, taught the brethren, and said, 'Except ye be circumcised after the manner of Moses ye cannot be saved.'" Then, it was "determined that Paul and Barnabas, and certain other of them, should go up to Jerusalem, unto the apostles and elders, about this question."

So this manner of sectarianism has come to us, and while we are not worrying over the question of circumcision, yet, the world today is full of the preaching—incorrectly socalled—that "except" ye follow after us, join our church, you cannot be saved. The greatest foe to Christianity comes in the shape of those who profess it. In tolerance, religious bigotry, is of the devil.

Paul went to Jerusalem by revelation. He was not disobedient to the Spirit, and where it was revealed to him to go, he went. And when he reached Jerusalem he did not preach a gospel made up for the occasion, but communicated the same gospel that he preached among the Gentiles. The gospel of the Cross, of Him "who gave Himself for our sins, that he might deliver us from this present evil world, according to the will of God and our father."

That was the character of preaching he gave them. It had no Moses nor circumcision in it; but Christ altogether. The people rejected Christ then, and they do so now. It is the only gospel that is worth preaching There are men in the pulpit these days who pervert this gospel of Christ. "But though we, or an angel from heaven, preach any other gospel unto you than that which we have preached unto you, let him be accursed."

Paul did not preach a man-pleasing style of sermon. He was not, however, discourteous to any degree, although, the bark flew off when he talked.

He made no compromise with sin. It is either straight Gospel or nothing. "For do I now persuade men or God? or do I seek to please men? for if I yet please men I should not be the servant of Christ." It might be well for the preachers to note this reasoning and conclusion. He, Paul, could not preach a man-pleasing Gospel and still remain a servant of Christ. Can you? Some folks say that the Gospel is attractive. It is anything else. So much so that in this day, in order to fill the pews it becomes necessary to have cultivated singers as an attraction. Singing is all right in itself, but it cannot come in as a substitute for the Gospel; though how often we hear the singing of the soloist commended and not a word for the preached Lord. And yet if the Gospel is lived as it is preached it proves a drawing power. For Christ teaches that if He be lifted up He will draw all men unto him. The trouble is, many who sit in the pews on Sunday and some who stand at the desk, do not lift him up in the daily life; and thus the religion of Christ becomes a by-word and reproach. No preacher whose life is not clean can draw men to the Cross, though he may possess ability. A friend told me that he heard a talented lawyer remark that he was fond of hearing one of two able ministers, whose names he called; that he believed one had religion but that the other did not, and was a grand rascal besides. The latter estimate is awful to think on. I believe as a rule the people are charitable to the faults of the ministry, and the case must be one of glaring inconsistency calling forth the above expression. Paul kept close to the Cross all the time. It meant suffering and trial but it was the only way by which he could get stamped on his body the marks of the Lord Jesus Christ. "Show me the prints of the nails," said an old monk to a man in princely attire who appeared before him with lordly air, and claimed that he was Christ He couldn't show the prints, and the impostor had to get out. It is said that our present silver dollar really contains not much more than fifty cents worth of silver, but because it is backed by gold it goes for a dollar. So no man can pass as a Christian before God who is not backed by the Christ life; if he passes with the people he is counterfeit. But generally he is detected. Paul preached the Gospel; he lived it; therefore, the people glorified God in him. He nobly defended the faith which he once tried to destroy.

Asheville, N. C.

A cream puff—the milkman's ad.

Remarkable Rescue

Mrs. Michael Curtain, Plainfield, Ill., makes the statement that she caught cold which settled on her lungs; she was treated for a month by her family physician, but grew worse. He told her she was a hopeless victim of consumption and that no medicine would cure her. Her druggist suggested Dr. King's New Discovery for consumption; she bought a bottle and to her delight found herself benefitted from first dose. She continued its use and after taking six bottles, found herself sound and well: now does her own housework, and is as well as she ever was.—Free trial bottles of this Great Discovery at C. E. Holton's drug store. Large bottles 50 cents and $1.00.

SOCIAL AND PERSONAL.

Leon J. Brandt went to Haw River this morning.

Will P. Ragan, of High Point, is attending court.

A. L. Ware, of Graham, spent last night in the city.

W. M. Morgan, of Durham, was here last evening.

Gen. R. F. Hoke, of Raleigh, was here today on business.

W. M. Rogers, of Raleigh, was a guest of the McAdoo last night.

Ben Collins, formerly baggage master on the Winston road, has been transferred to the main line for a few days.

E. M. McIver, editor of the Milton Herald, Milton, passed through the city today enroute to Jonesboro to spend Sunday with relatives.

W. M. Gallagher, of Bryan, Pa., says: "For forty years I have tried various cough medicines. One Minute Cough Cure is best of all." It relieves instantly and cures all throat and lung troubles, coughs, colds, croup, whooping-cough, la grippe and pneumonia. Howard Gardner.

When a fellow has one of his arms amputated he' pretty sure to pay the surgeon's bill off hand.

What you want is not temporary relief from piles but a cure to stay cured. DeWitt's Witch Hazel Salve cures piles, and they stay cured. Soothes and quickly heals old sores, scalds, cuts, burns, wounds and skin diseases. Howard Gardner.

"This," lamented Funniman as the family horseshoe came in contact with his cranium, "is what might be called a lucky strike."

No Cure—No Pay.

That is the way all druggists sell Grove's Tasteless Chill Tonic for Chills and Malaria. It is simply iron and quinine in a tasteless form. Children love it. Adults prefer it to bitter, nauseating tonics. Price, 50c.

"Do you believe that marriage is a lottery?" queried the slow young man. "Well, I should gamble," exclaimed his fair companion with such deep meaning that de took a chance right off and won.

What is Kodol Dyspepsia Cure? It is the newly discovered remedy, the most effective preparation ever devised for aiding the digestion and assimilation of food, and restoring the deranged digestive organs to a natural condition. It is a discovery surpassing anything yet known to the medical profession. Howard Gardner.

Weary Willie—"Pete's dead. He drunk thirteen glasses o' booze on a wager an' it killed him." Wornout Walker—"He oughter knowd thirteen wuz unlucky. Why didn't he take another an' break de hoodoo?"

To cure piles, strike at the root—that's the way. DeWitt's Witch Hazel Salve strikes at the root—it removes the cause, quickly and permanently. Don't squander time and money trying to remove the effects. Howard Gardner.

Good Roads Club.

The Sapphire Country.

Along the cool southern slopes and table lands of the Blue Ridge mountains in Western North Carolina, at an average altitude of 3,000 feet, is a country full of delightful surprises to the tourist, sportsman and health-seeker. No other state contains so many clear, cold and wonderfully picturesque streams, so many grand water falls, such wide sweeping mountain views, and such beautiful lakes as the Sapphire Country, where until recently there was no provision made for the accommodation of visitors to this delightful section. Now, however, entertainment is offered on Lake Sapphire, Lake Fairfield, and on the summit of Mt. Toxaway, the view from the lodge there being the most extensive of any mountain point of vantage in North Carolina.

Parties desiring to visit this beautiful country can purchase round trip tickets to Brevard, N. C., via Hendersonville, where coaches convey you over good roads making the drive one of extreme pleasure. For full information call on any agent Southern Railway, or write R. L. Vernon, traveling passenger agent, Charlotte, N. C., or W. A. Turk, general passenger agent, Washington, D. C.

SOME INTERESTING FIGURES

Which Every Citizen of Greensboro Should Carefully Read.

The following is a statement showing why the issue of $300,000 of bonds will not require a raise in the rate of taxation, but rather tend to decrease it:

Estimated cost of water plant	$100,000
" " light plant...	25,000
" " market and auditorium.....	35,000
Estimated cost of ten miles of macademized streets.....	75,000
Sewerage	65,000
	$300,000
Estimated cost to operate both plants from one station.....	$ 7,500
5 per cent interest on $300,000 of bonds.....	15,000
	$22,500
Rent now paid for water and lights by the city.....	$11,000
Estimated income from rent of market and auditorium	2,500
Actual income from sale of water to private consumers by private water company.....	8,000
Estimated increase in sales of water to private consumers account of additional sewerage	3,250
	$24,000
Deduct cost of operating plant and 5 per cent on $15,000.....	$22,500
Net profit to city.....	$ 2,250

Can't sell the bonds when issued? One of the best and most level-headed business men in the city says that he will contract to take all the bonds at par, and put up a forfeit of ten thousand dollars for performance of his contract.

Can't pay interest without increase of taxation or increase of property valuation? The limit of taxation has been reached already, and both the constitution of North Carolina and the special act authorizing the bond issue expressly forbid any increase of present rate of taxation.

Can't pay interest on bonds and operate water and light plants without a loss? In answer to this objection one of the best business men in the city, who has knowledge and experience in such matters, and who is legally responsible for any contract that he may make for any reasonable sum of money, says that he will enter into a contract to pay the interest on bonds and operate the plants, without cost to the city, for the profits, putting up any reasonable forfeit for performance of contract and good service.

Of the 3,000 cities in the United States having water works 1,500 own their own systems and operate them at a profit. See carefully compiled statistics in a recent decision of the supreme court.

Since 1861 the city of Chicago has made a net profit of $14,000,000 on its water works and has supplied the city with water for fire protection without cost. See recent report of the department of public works of the city of Chicago.

In 1861 Chicago was probably smaller than Greensboro is today.

If the water works and electric lights can be operated by separate companies in separate plants at present, at a profit to each, does any sensible man doubt that the two plants could be combined and operated at much less expense and much larger profit by the city?
